

ABSS EcoQuip

Wet Abrasive System

Model EQ600C

General EQ600C

Dimensions	1800L x 890W x 1420H
Weight	500kgs Dry / 1270kgs Wet
Air Capacity	375 CFM - 440 CFM
Pot Media Capacity	225kgs. (9 Bags Blast Media)
Pot Working Pressure	100psi - 120psi
Hose Length	50' Initial - Suits Standard Blast Length
Available Accessories	Hose Extensions, Whip Ends, Blast Nozzle and Deadman Handle Assembly
Warranty**	Complete Machine for 1 Year From Original Purchase Date

ABSS are the **exclusive** Australian and New Zealand Distributor for **EcoQuip®** Water Vapour Abrasive Blasting Systems for the Coating Removal and Surface Preparation Industries. The **EcoQuip®** system provides an **Eco-Friendly** method of Abrasive Blast Cleaning.

The **EcoQuip®** system has the ability to eliminate more than 90% of airborne particles while achieving removal rates comparable to traditional Dry Blast Cleaning processes and therefore improve the efficiency by minimising the containment required and reducing the project costs.

Superior in technology, **EcoQuip®** products are designed to be used in a variety of difficult environmental conditions like high-humidity, rain and even underwater.

The **EcoQuip®** high-performance system is a proven solution when it comes to surface preparation for the Mining Industry, Bridges, Large Painting and Coating Contractors, Waste Treatment Plants.

The **EcoQuip®** system consumes only 22-45 kgs (50-100 lbs) of Abrasive Media per hour, minimises Containment requirements and lowers clean-up and disposal costs.

The **EcoQuip®** machine is versatile and gentle enough to clean wood, sandstone or limestone.

The technology behind the **EcoQuip®** system is a mixture of Compressed Air, Abrasive Media and Water Vapour, combined with a unique flow-design.

REMEMBER...

- **Reduced Media Consumption**
(22 – 45kgs per hour)
(Up to 75% Less Abrasive Media)
- **Reduced Water Run-Off**
(less than 1ltr per minute)
- **Supress Dust by More than 90%**
(reducing containment costs)
- **Less Waste Material to Dispose**
(reducing transport and disposal costs)
- **Effective in High Humidity and Rain**
- **Remove Coatings without Damaging the Substrate**
- **Uses any Abrasive Heavier than Water**
